

FIFA MEN'S WORLD CUP 2026

Everything you need to set up your World Cup fundraising sweepstake for Women in Sport

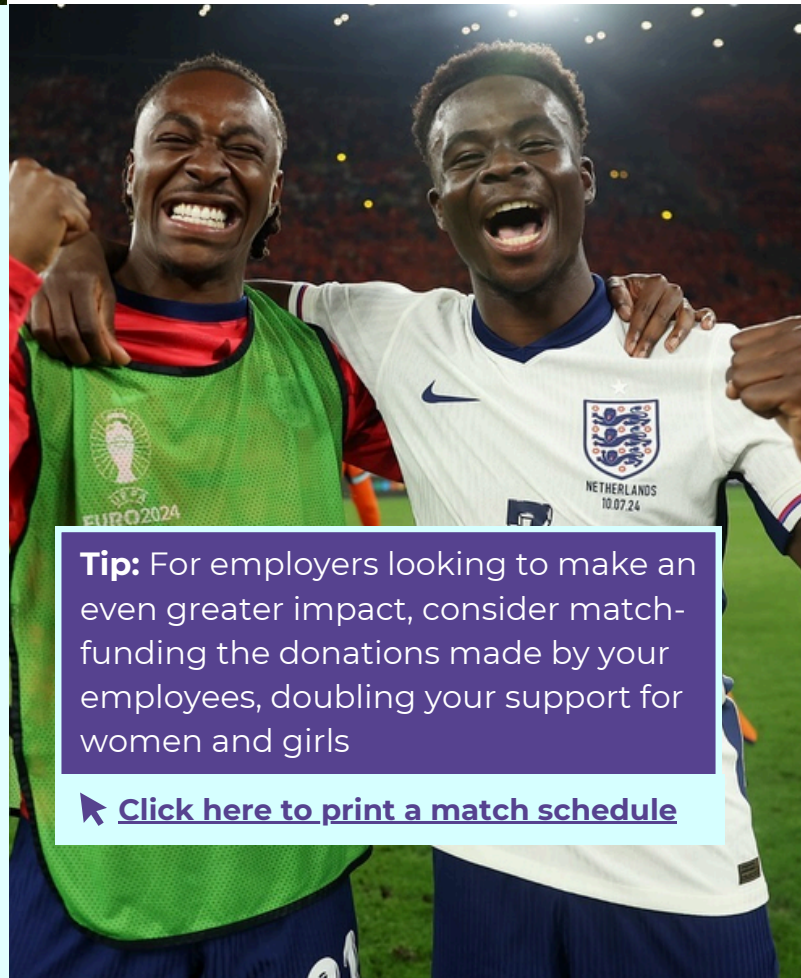

Women's sport has never been more visible. In 2025, **12.2m people** tuned into England's historic **Women's Euro victory**; the most-watched sports moment of the year.

The Lionesses have shown girls that there's a place for them in our national game. **So why is there still a 24% gap between boys and girls who play team sport?** From harmful stereotypes, to lack of girls' teams, and too few female coaches, girls still face barriers in sport every day.

If we're serious about equality for women and girls, we need everyone onside. That's why this summer, we're celebrating the FIFA Men's World Cup while championing the future of the women's game. **Join us: we're stronger together.**

How to host a sweepstake

1. Cut out the team tickets on the next page and place them into a hat or container
2. Ask for a small donation - we suggest £5 or £3 - and invite participants to draw at random
3. Make a note of each participant's team; any unallocated countries can be redistributed
4. Follow along with the tournament; at the end, the winner will collect 50% of the pot with remaining funds donated to Women in Sport
5. Donate the funds you've raised via [our website](#) or by setting up a fundraising page on [JustGiving](#).

Tip: For employers looking to make an even greater impact, consider match-funding the donations made by your employees, doubling your support for women and girls
